Se puede generar la Lista de Roles

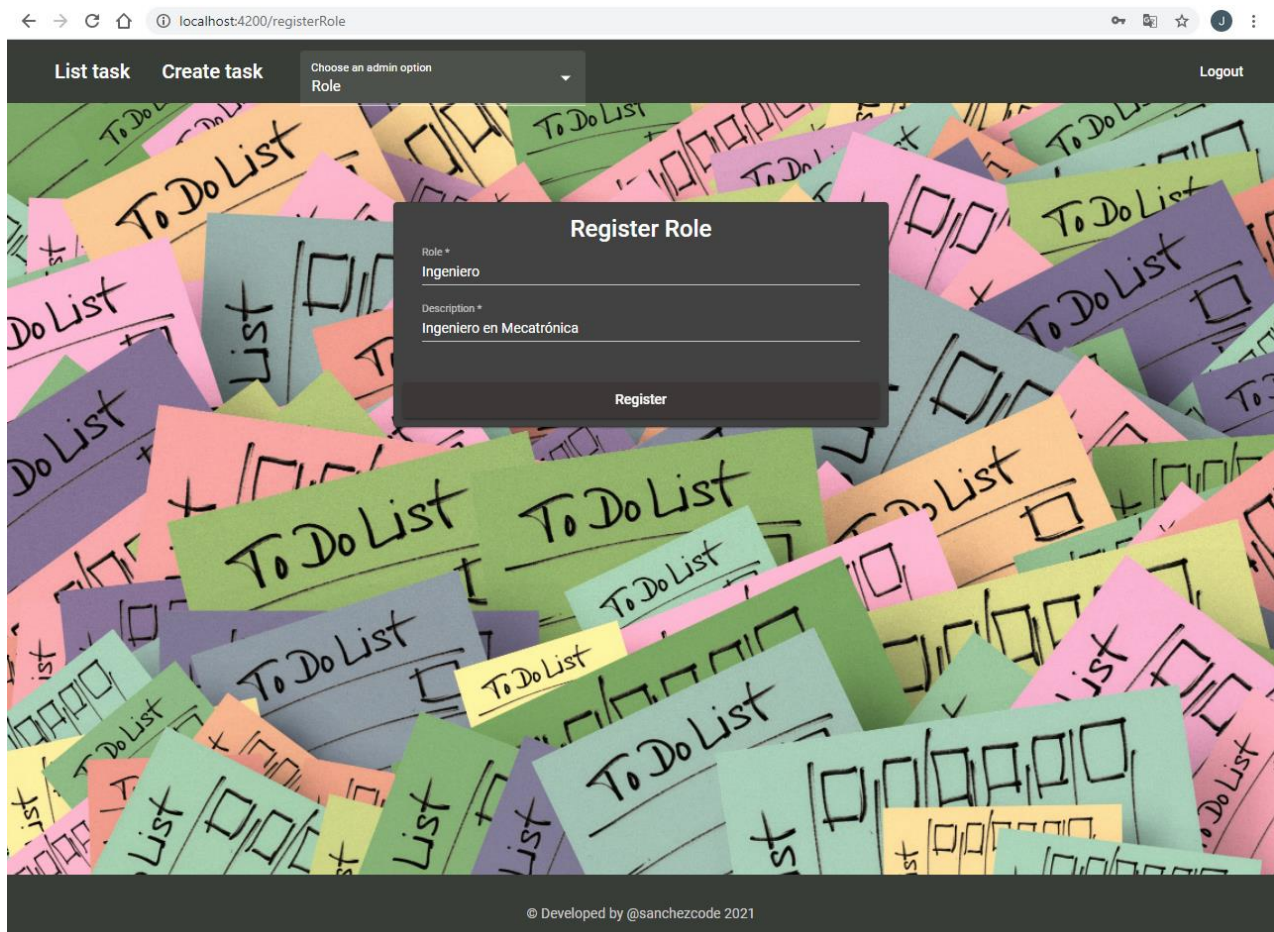

The screenshot shows a web application interface with a dark header. The header contains 'List task', 'Create task', a dropdown menu 'Choose an admin option Role', and a 'Logout' link. The background is a collage of colorful sticky notes with 'To Do List' written on them. A modal titled 'New Role' is open, displaying a table of roles.

NAME	DESCRIPTION	ACTIONS
user	usuario normal de la app	
admin	admin editado de la app	
Cliente	Cliente frecuente de la app	

At the bottom of the modal, there is a pagination control showing 'Items per page: 5' and '1 - 3 of 3'.

Se puede registrar un Rol si se es admin

The screenshot shows the 'registerRole' page in a web browser. The browser address bar shows 'localhost:4200/registerRole'. The page has the same header as the previous screenshot. A modal titled 'Register Role' is open, with the following fields:

Role *
Ingeniero

Description *
Ingeniero en Mecatrónica

Register

Se evidencia en base de datos

The screenshot shows the MongoDB Compass interface. On the left, the 'Local' sidebar lists databases and collections. The 'dbscrumboard' database is selected, and the 'roles' collection is highlighted. The main panel shows the 'Documents' tab for the 'roles' collection. At the top, it indicates 4 documents, a total size of 464B, and an average size of 116B. Below this, there are tabs for Documents, Aggregations, Schema, Explain Plan, Indexes, and Validation. A filter bar shows the filter '{ field: 'value' }'. Below the filter bar, there are buttons for 'ADD DATA', 'VIEW', and 'REFRESH'. The main area displays three documents in a list view:
